ref #9022: add lifespan to person detail element

History

#1 - 05/26/2020 03:31 PM - Wolf-Henning Kusber

Life span of a person, or date a person has published nomenclatural novelties, e.g. 1795-1876, 1961-, -2016, fl. 2020

Phycobank: years only, fl. means a year the author has published, "fl." is part of the free text entry.

#2 - 06/08/2020 02:10 PM - Andreas Kohlbecker

- Tags set to phycobank

#3 - 06/08/2020 03:35 PM - Katja Luther

- Status changed from New to In Progress

The lifespan is added to the details view of persons, this is fixed, but there is a general problem with the time period element. Entering a year yields to recalculate the sizes of the textfields and the field of the year becomes smaller and the other two fields become wider. A new ticket for this issue:
