

EDIT - feature request #9116

Adapt Editor to switch to originalSource for TaxonNode and improve layout of TaxonNode dialogue

07/01/2020 01:05 PM - Katja Luther

Status:	Closed	Start date:	
Priority:	New	Due date:	
Assignee:	Katja Luther	% Done:	70%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 5.17		
Severity:	normal		
Description			
e.g TaxonName.nomenclaturalSource and TaxonName.source. For a complete list of all such places see #6581			
Nomenclatural reference and placement reference are originalSources now. The detail elements should be adapted to these changes.			
As a first step the reference and for the nomenclatural reference also the reference detail should always be visible and the other informations should be expandable.			
A more suffisticated solution could be to have two views, a simple view with reference and reference detail as default and an advanced view with all fields. On the advanced view it should be possible to choose the fields which should be shown in the simple view. This information should be saved in local preferences.

History

#1 - 07/01/2020 01:43 PM - Katja Luther

- Related to feature request #9004: Make `TaxonNode.referenceForParentChildRelation` an `OriginalSource` and rename it to `(placement)source` added

#2 - 07/01/2020 02:58 PM - Andreas Müller

Note: At the moment nomenclatural reference is not really a source yet but nom ref and nom source exist in parallel. However the existing `nom.source` can be used for development reasons. But before committing this we also need an updated script for the `nom.ref`. The placement source is fully migrated already which means data is only stored in `TaxonNode.source` and `TaxonNode.getReference()` is only a wrapping method.

#3 - 07/01/2020 02:59 PM - Andreas Müller

- Related to feature request #6581: Make all microreferenced references `OriginalSources` added

#4 - 07/01/2020 03:01 PM - Andreas Müller

- Subject changed from `Adapt Editor` to switch to `originalSource` for `Nomenclatural Reference` and `placement reference` to `Adapt Editor` to switch to `originalSource` for all single sourced objects

- Description updated

#5 - 07/01/2020 03:06 PM - Andreas Müller

Note2: In the `TaxEditor` most elements implementing such single source refer to `ReferencedEntityBase/ReferencedEntity`. This base class will be removed in future as it should only be implemented by `OriginalSourceBase` then and therefore a base class is not needed anymore. Instead we will have `SingleSourcedEntityBase` which more or less replaces `ReferencedEntityBase` and will not inherit from `ReferencedEntityBase` but from `AnnotatableEntity`.

The same applies for `ReferencedEntityDaoImpl`.

#6 - 08/12/2020 01:13 PM - Katja Luther

- Assignee changed from *Katja Luther* to *Andreas Müller*

AM please have a look whether the taxon node details view is ok, in some places the internationalization is still missing.

#7 - 08/12/2020 01:20 PM - Andreas Müller

- Status changed from *New* to *Resolved*

#8 - 08/12/2020 01:21 PM - Andreas Müller

I will switch back to "In Progress" once I have reviewed this part.

#9 - 08/12/2020 05:47 PM - Andreas Müller

- Status changed from *Resolved* to *Feedback*

- Assignee changed from *Andreas Müller* to *Katja Luther*

About the new original source section:

- The "detail" field is missing
- There is empty space between "Advanced" and "Id in Source"
- The source is of type `DescriptionElementSource` so it should also implement `nameUsedInSource`
- If possible "Advanced" should be indented to show that it belongs to "Placement source", otherwise one thinks that it is an own section
- "Advanced" is maybe not the correct label, it is more "Additional" information

About the new ordering:

- it looks much better now, it becomes much clearer which information part belongs to taxon and which belongs to the node
- Related person or teams should be moved to the end (as they are by far less used than the placement source I guess)
- Secundum detail reference is missing
- There should be a bit more space above and below the separator
- The separator is not visible if the node is updated (not created), is this on purpose? It looks somehow better but with the other bold headers the separation is not that obvious. So either we should find a solution for not having the other headers in bold or we better use the separator

#10 - 08/12/2020 05:47 PM - Andreas Müller

- % Done changed from 0 to 30

#11 - 08/14/2020 12:12 PM - Katja Luther

- Status changed from Feedback to Resolved

- Assignee changed from Katja Luther to Andreas Müller

The layout issues should be fixed and also the missing fields.

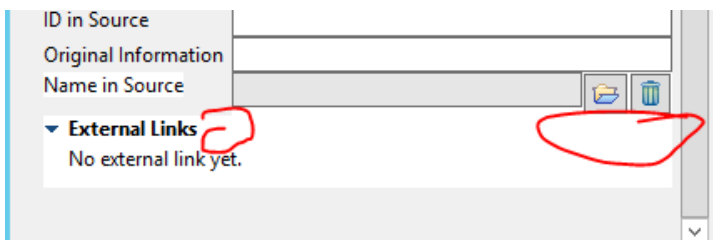

#12 - 08/14/2020 01:11 PM - Andreas Müller

- File picture319-1.png added

- Status changed from Resolved to Feedback

- Assignee changed from Andreas Müller to Katja Luther

- External links can not be added, a "+" button is missing

- There is empty space between "Advanced" and "Id in Source" => this is still an open issue
- "Details" for Placement source should be indented
- If possible "Advanced" should be indented ... => this is still an open issue
- Related persons or teams should be moved to the end => this is still an open issue
- There should be a bit more space above and below the separator => as there is no separator anymore this is now true for the label "Taxon node" itself

#14 - 08/14/2020 01:13 PM - Katja Luther

Andreas Müller wrote:

- External links can not be added, a "+" button is missing

This is only as long as you did not enter a reference and therefore a descriptionElementSource is created.

#15 - 08/14/2020 01:15 PM - Andreas Müller

When selecting the placement source the "Additional information" section collapses. This should not happen.

Also when opening a taxon node that has additional source information by default the section should be expanded to show the information

#16 - 08/14/2020 01:21 PM - Andreas Müller

Katja Luther wrote:

This is only as long as you did not enter a reference and therefore a descriptionElementSource is created.

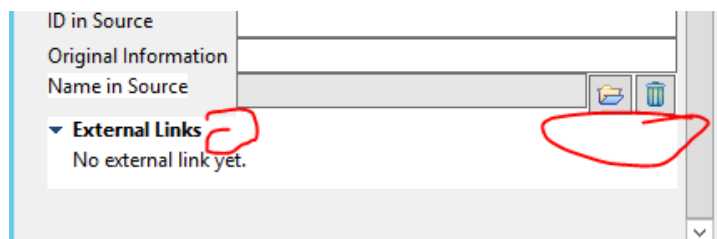

Hmm, I don't understand this. Why is it depended on entering a reference first?

Hmm, I tested and see now, that entering a detail first swallows this information and field is emptied again. There seems to be something incorrect the way data is created. Why can't you e.g. always create a source and simply remove it before saving if it is completely empty. There is even a method for doing this check: checkEmpty(...)

#17 - 08/14/2020 03:49 PM - Katja Luther

Andreas Müller wrote:

- External links can not be added, a "+" button is missing

this is fixed

- There is empty space between "Advanced" and "Id in Source" => this is still an open issue

this is not as easy as it seems, I already set margin on top and bottom to 0, I will create a new ticket for this issue => [#9192](#)

- "Details" for Placement source should be indented

On other places the details are like they are here, if we change it here, we should change it also for sec reference and nomcl. reference

- If possible "Advanced" should be indented ... => this is still an open issue

this is fixed

- Related persons or teams should be moved to the end => this is still an open issue

this is fixed.

- There should be a bit more space above and below the separator => as there is no separator anymore this is now true for the label "Taxon node" itself

this is fixed.

#18 - 08/14/2020 05:37 PM - Katja Luther

- Related to feature request #9192: Layout issues for source in taxonnode details added

#19 - 08/14/2020 05:38 PM - Katja Luther

- Status changed from Feedback to Resolved

- Assignee changed from Katja Luther to Andreas Müller

#20 - 08/19/2020 12:32 PM - Andreas Müller

- Status changed from Resolved to Feedback

- Assignee changed from Andreas Müller to Katja Luther

Katja Luther wrote:

- "Details" for Placement source should be indented

On other places the details are like they are here, if we change it here, we should change it also for sec reference and nomcl. reference

Yes, we should do this also at the other places but we should start here (by the way nom. ref. and sec. ref. will be handled the same way as placement sec with the next release, so this will be done anyway, soon)

#21 - 08/19/2020 12:35 PM - Andreas Müller

- % Done changed from 30 to 70

Could we still rename "Additional information" to "More" and not make it bold (we could try with italics, this may make it more clear that it is not a NEW section but it just continuous the above section.

In general the dialogue looks much better now, I think

#22 - 08/19/2020 01:59 PM - Katja Luther

Andreas Müller wrote:

Could we still rename "Additional information" to "More" and not make it bold (we could try with italics, this may make it more clear that it is not a NEW section but it just continuous the above section.

In general the dialogue looks much better now, I think

The text is handled by ExpandableComposite a rcp class, I could not find a solution to change the font. The renaming I forgot to commit, sorry is done now.

The indent for the details is added.

#23 - 08/19/2020 03:32 PM - Andreas Müller

- Precedes bug #9199: Adapt TaxEditor to switch to originalSource for remaining single sourced objects added

#24 - 08/19/2020 03:33 PM - Andreas Müller

- Subject changed from Adapt Editor to switch to originalSource for all single sourced objects to Adapt Editor to switch to originalSource for TaxonNode and improve layout of TaxonNode dialogue

#25 - 08/19/2020 03:39 PM - Andreas Müller

- Status changed from Feedback to Resolved

- Assignee changed from Katja Luther to Andreas Müller

Katja Luther wrote:

In general the dialogue looks much better now, I think

The text is handled by ExpandableComposite a rcp class, I could not find a solution to change the font. The renaming I forgot to commit, sorry is done now.

The indent for the details is added.

So I think open issues are solved. I put ticket to resolved. OK? I add the "font" issue to [#9192](#).

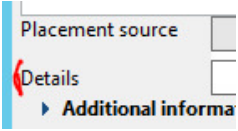

#26 - 08/19/2020 03:52 PM - Andreas Müller

The renaming for English was missing. I added this.

#27 - 08/19/2020 03:53 PM - Andreas Müller

- File *picture294-1.png* added
- Status changed from *Resolved* to *Feedback*
- Assignee changed from *Andreas Müller* to *Katja Luther*

The indentation does not seem to work yet:

#28 - 08/19/2020 08:42 PM - Andreas Müller

- Target version changed from *Release 5.18* to *Release 5.17*

#29 - 08/20/2020 08:20 AM - Katja Luther

- Status changed from *Feedback* to *Closed*

The indent is available now, so I close this ticket.
