- Subject changed from cdm propert to store a default copyright statement for media items to cdm property to store a default copyright statement for media items

#4 - 07/07/2020 02:15 PM - Andreas Müller

I think defaultMediaCopyright(Statement) is better as there are also many other possible types of copyright e.g. on taxa etc. "Statement" is maybe not necessarily needed.

Maybe we should better call it additionalMediaCopyright as this statement should always appear additionally to any other copyright statement available.

If this property is linking to an eu.etaxonomy.cdm.model.media.Rights object it could be easily handled as i18n text in future (currently Rights does not support i18n yet). However, it might be to complex to do so.
