Severity:	normal			

Description

It is currently required in taxeditor.cdmlib because log4j.xml uses org.apache.log4j.filter.ExpressionFilter which stemms from apache-log4j-extras.

However, there should be other possibilities to define filters in Log4j.
E.g. solution for https://stackoverflow.com/questions/26166281/how-to-filter-a-specific-exception-from-log4j may work
