

EDIT - feature request #9211

Handle source(s) for Classification

09/02/2020 02:16 PM - Andreas Müller

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Andreas Müller	% Done:	100%
Category:	cdm	Estimated time:	0:00 hour
Target version:	Release 5.22		
Severity:	normal		
Description			
<p>In #6581 we replaced reference links by sources (e.g. for SingleSourcedEntityBase). Classification is already IdentifiableEntity/SourcedEntityBase and therefore has already multiple sources. So we need to discuss how to unify these two possibilities to add source(s) to a classification.</p> <p>Probably we have to move the existing source to the set of sources and remove the possibility to define a single source.</p> <p>Problematic in this solution is that root taxa inherit their sec reference from classification by default. Maybe we could use the only PrimaryTaxonomicSource automatically if there is not more than 1, otherwise we need user feedback.</p> <p>Also we need to discuss that we have a similar situation for taxa where we have the sec source and other sources, but this is slightly different as sec is meant for defining the concept.</p> <p>For this we need a possibility in TaxEditor to edit the sources for Classifications which is currently not possible.</p> <p>Note: As the single source is also used in TaxEditor to compute the secundum sources for top-level taxa an explicitly single source does seem to make sense (for now) and therefore we will implement it.</p>

- Status changed from Resolved to Closed

- Target version changed from CDM UML 5.43 to Release 5.22

- % Done changed from 50 to 100

Update script worked correctly. I close this ticket. Followup ticket for TaxEditor exists. For dataportal probably not needed (are sources displayed somewhere in the portal?).
