EDIT - feature request #9229

TaxonNameEditor: use NomenclaturalStatusDTO to avoid data loading probems within setters in TaxonName

09/22/2020 02:43 PM - Andreas Kohlbecker

Status:	Closed	**Start date:**	
Priority:	Highest	**Due date:**	
Assignee:	Andreas Kohlbecker	**% Done:**	100%
Category:	cdm-vaadin	**Estimated time:**	0:00 hour
Target version:	Release 5.18		
Severity:	normal		

Description

due to the changes made in #6581 the setter for NomenclaturalStatus in Taxon Name checks for empty SingleSource entities which requires annotations etc to be initialized.

Using NomenclaturalStatusDTO instead of the domain entity itself would help avoid the need for initialization of associated collections
