**Description**

The property name IKeyTerm.message is misleading and confusing it should be renamed to label

---

From email communication:

Hallo,

ich finde IKeyTerm.getMessage() immer wieder irritierend. Warum denn Message hier handelt es sich doch eindeutig um ein Label, das sieht so auch inm Java-doc.

Wäre schön wir könnten das mal ändern.

Viele Grüße  
Andreas

...

Ja, da hast du vermutlich Recht. Ich weiß ehrlich gesagt nicht mehr, warum ich das damals Message genannt habe. Von mir aus können wir das ändern.
