| **Target version:** | Release 5.46 | | | |
| **Severity:** | normal | | | |

### Description

1. The render templates still refer to the old model in which protologues have been handled via name descriptions.
2. separate definition of microreferences makes no more sense --> remove these

CDM_PART_DEFINITIONS_DEFAULT:

```
'descriptionPart' => array(
      'description' => TRUE,
    ),
```

CDM_NAME_RENDER_TEMPLATES_DEFAULT

```
'descriptionPart' => TRUE,
```

this should be changed to 'protologue'

Updating of all default (in code) and custom template definitions in the data bases is required
