

EDIT - bug #9351

Include new locations for cdmlib-print and cdmlib-remote in jenkins release script

12/08/2020 08:37 AM - Andreas Müller

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Andreas Kohlbecker	% Done:	100%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 5.20	Found in Version:	
Severity:	blocker		
Description cdmlib-print and cdmlib-remote are now only available in taxeditor.printpublisher. Therefore the according links to the libraries are now located in the printpublisher Manifest.MF and build.properties, not in taxeditor.cdmlib anymore. The release scripts need to be adapted accordingly. This is critical because the provision job for taxeditor does not work otherwise.

This ticket is unclear to me what is meant with "jenkins release script"?

I checked server-scripts/jenkins-ci/taxeditor/ and could not find anything related.

So this must refer to the jenkins jobs directly but none of these configfiles contains any line with "SNAPSHOT" or "print":

```
./taxeditor-SA-JRE-INTEGRATION/config.xml
./taxeditor-SITE-DEPLOY/config.xml
./taxeditor-INTEGRATION/config.xml
./taxeditor-SA-INTEGRATION/config.xml
./taxeditor-PROVISION/config.xml
./taxeditor-SNAPSHOT/config.xml
./taxeditor-JRE-INTEGRATION/config.xml
./taxeditor-RLS-FINISH/config.xml
./taxeditor-HFX-START/config.xml
./taxeditor-JRE-SNAPSHOT/config.xml
./taxeditor-RLS-START/config.xml
./taxeditor-parent-SITE-DEPLOY/config.xml
./taxeditor-HFX-FINISH/config.xml
```

Are you 100% sure that there is anything that need to be changed in jenkins?

#7 - 01/29/2021 11:47 AM - Andreas Müller

- Status changed from Feedback to In Progress

- Assignee changed from Andreas Müller to Andreas Kohlbecker

Please refer to my commits above. This changing of the version in eu.etaxonomy.taxeditor.printpublisher/META-INF/MANIFEST.MF and eu.etaxonomy.taxeditor.printpublisher/build.properties similar to what we do in poms.

#8 - 01/29/2021 12:22 PM - Andreas Müller

Änderung ist: cdmlib-remote und cdmlib-print waren bislang dependencies von taxeditor.cdmlib. Jetzt sind es nur noch dependencies von taxeditor.printpublisher. Daher müssen jetzt die ManifestMF und die build.properties von taxeditor.printpublisher geupdated werden, genauso wie auch die ManifestMF und build.properties in taxeditor.cdmlib geupdated werden. Letzteres funktioniert auch weiterhin, aber eben nicht für remote und print da diese jetzt eben nur in der ManifestMF und build.properties von printpublisher stehen.

#9 - 01/29/2021 12:43 PM - Andreas Kohlbecker

the following lines in server-scripts/jenkins-ci/taxeditor/repo-update-git.sh need to be adapted, so that the "ManifestMF und die build.properties von taxeditor.printpublisher geupdated werden":

```
#update the cdmlib.version (and taxeditor.version) values in the parent pom.xml to $cdmlib_version
if [ -n "${cdmlib_version}" ]; then
    $_my_path/taxUpdateConfig.pl $cdmlib_version
    #update cdmlib jars
    cd $WORKSPACE/eu.etaxonomy.taxeditor.cdmlib
    #update MANIFEST.MF, classpath and build files to keep eclipse environment consistent
    sed -i "s/(lib/cdmlib\-.*)\[\[:digit:]\]\+\.\[\[:digit:]\]\+\+(-SNAPSHOT)\)\?(\(-sources\)\)?\.\
jar\)/\1$cdmlib_version\3/g" ./META-INF/MANIFEST.MF
    # no longer needed since #4227 is completed:
    # sed -i "s/(lib/cdmlib\-.*)\[\[:digit:]\]\+\.\[\[:digit:]\]\+\+(-SNAPSHOT)\)\?(\.jar\)/\1$cdm
lib_version\3/g;s/(lib/cdmlib\-.*)\[\[:digit:]\]\+\.\[\[:digit:]\]\+\+(-SNAPSHOT)\)\?(\(-sources\.\ja
r\)/\1$cdmlib_version\3/g" ./classpath
    sed -i "s/(lib/cdmlib\-.*)\[\[:digit:]\]\+\.\[\[:digit:]\]\+\+(-SNAPSHOT)\)\?(\(-sources\)\)?\.\
jar\)/\1$cdmlib_version\3/g" ./build.properties
fi
```

1. create a function for that!
2. make a dry run to test the script

#10 - 02/08/2021 01:57 PM - Andreas Kohlbecker

- Target version changed from Release 5.21 to Release 5.20

#11 - 02/08/2021 02:59 PM - Andreas Kohlbecker

- Status changed from In Progress to Closed

- % Done changed from 0 to 100

fixed in server-scripts:

```
svn ci -m "ref #9351 support for setting version in multiple projects & fixing some problems"
Sending      repo-update-git.sh
```
