

EDIT - feature request #9363

Allow to parse the new team when converting person to team

12/22/2020 09:56 AM - Andreas Müller

Status:	New	Start date:	
Priority:	New	Due date:

Target version:	Unassigned CDM tickets		
Severity:	minor		
Description			
copied from #5163			
<p>When converting a person to a team does not get team members by default. We could add a configuration that allows parsing the old person into a team in cases where the old person was an unparsed team.</p> <p>A third configuration could be to keep or clone the old person as (first) person of the new team for the usecase that an "author" needs to be augmented from a single person to a real team.</p> <p>No hight priority as this is only shortcut functionality and can be done also with existing functionality. Also it is not used very often.</p>
