

EDIT - feature request #9409

[Decision] Which terms should be editable in term tree editor (and vocabulary editor)

01/21/2021 12:57 PM - Andreas Müller

Status:	New	Start date:	
Priority:	New	Due date:	
Assignee:	Andreas Müller	% Done:	0%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Unassigned CDM tickets		
Severity:	normal		
Description			
copied from #9338			
Open term types:			
DerivationEventType (not in use yet?) => if to use last section			
DnaQualityType (fixed vocabulary?) => if to use last section			
HybridRelationshipType (currently not in use , should go to taxon section with "rank"			
InstitutionType (not in use) => section?			
Material and MaterialOrMethod (in use already?) => if to use last section			
MeasurementUnit (currently fixed, probably model update needed to open it for general use) => if to use in first section (descriptive data)			
Method , same as MaterialOrMethod ?			
NaturalLanguageTerm (still needed?) ?> if to use first section			
ReferenceSystem (to discuss) => if to use NamedArea section			
Rights Type (in trees only) - not sure if needed => supplemental data section			
SynonymType (for now not editable, maybe will be turned to an enum in future) => otherwise go to name section with rank			
TermRelationType (currently not to be used externally)			
TextFormat (currently not in use)			
unknown (currently not in use)			
Also some more vocabularies can not be edited in vocabulary but only trees can be edited.			
Probably this should be done after restructuring terms #6794 has been finished.
