Description

The Name type editor needs some fine tuning:

"not typified" (only) must not combined with a scientific name for logical reason

"rejected" AND "conserved" AND "Not typified" can be stored.
Correct is "rejected" OR "conserved" OR "Not typified" should be stored (if nothing is selected from the pick list).

solution:

1. radiobuttons for "rejected", "conserved", "Not typified"
2. hide TypeName field when "Not typified" is selected and set the name to "NULL" when saving
