<b>Target version:</b>	Release 5.20	<b>Found in Version:</b>	
<b>Severity:</b>	normal		
<b>Description</b>			
Previously the filter in the distribution editor did throw an exception (see <a href="#">#7254</a> and <a href="#">#9457</a> ). This is not the case anymore. However, the filter does not seem to work.			
I tested on <a href="http://test.e-taxonomy.eu/cdmserver/flora_cuba/app/distribution">http://test.e-taxonomy.eu/cdmserver/flora_cuba/app/distribution</a> with area filter on Cuba, West Cuba and Central Cuba and filter "Ancistranthus harpo*" or only "Ac*" but nothing appeared in the "Taxonomy" box

Code changes look good. As far as you have tested the UI successfully you can close this ticket.
