

EDIT - bug #9510

Improve label for descriptions created via DDS matrix

03/04/2021 10:50 AM - Andreas Müller

Status:	In Progress	Start date:	
Priority:	New	Due date:	
Assignee:	Katja Luther	% Done:	0%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 5.45	Found in Version:	
Severity:	normal		
Description			
<p>The automatically created label for a new "literature" description is something like {name of DDS}: Factual data set for {Taxon name}</p> <p>"Factual data set" is not fully correct. It could be something like "...: Literature data for {Taxon name}"</p> <p>Also from the matrix perspective it does not make so much sense to put the DDS name in front as all record visible there belong to this dataset. But from the factual data view perspective it may make sense so I have no better idea.</p> <p>The same issue exists for taxon descriptions holding individual associations created via the matrix. They also use "Factual data set for {Taxon name}" which is too unspecific.</p> <p>Maybe we could use something like "Specimen used by {name of DDS} for {taxon name}? => DONE</p> <p>Also we need to think about the existing description relabeling during taxon operations (e.g. syn<->acc swap leads to a new label which has nothing to do with the old label anymore). The new label formatter is defined in the swap function in TaxonService (should be moved to model.format anyway).</p>

Auch das Label der Specimen description selber entspricht noch nicht ganz dem, wie wir es mal besprochen haben:

===

Aus alter Mail (2019-11-20):

AM:

Mein Vorschlag wäre „Descriptive Data {Dataset Name} for {Taxon Name}“ oder andersherum. Allerdings wird das natürlich ein bisschen lang. Gleichzeitig sind aber die Bezüge zum Taxon, Dataset und dass es sich um Descriptive Data handelt recht essentiell um in jedem Kontext zu verstehen, worum es sich handelt.

AK:

Finde ich sehr gut!

NK:

ich auch

===

Derzeit scheint es eher sowas wie {Dataset name}: Specimen description for {Specimen titleCache} zu sein. Oder haben wir uns da nach der Mail nochmal umentschieden.

Ich finde die Variante aus der Mail besser.

#6 - 03/04/2021 01:07 PM - Andreas Müller

... ich sehe gerade, dass die obige Labeldiskussion v.a. fürs Portal gedacht war, dennoch vielleicht auch passend für das Label der Description selber.
