

EDIT - bug #9581

Strange focus behavior in taxon navigator after right mouse click

04/14/2021 10:48 PM - Andreas Müller

Status:	New	Start date:	
Priority:	Highest	Due date:	
Assignee:	Katja Luther	% Done:	0%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 5.45	Found in Version:	
Severity:	normal		
Description			
How to reproduce:			
<ul style="list-style-type: none">• Open referencing objects view• Select 2 taxa in navigator and open in distribution editor via context menu => in referencing objects view no record is shown as multiple selection does not show records (label update currently not yet correct)• select other (single) taxon in navigator => the referencing objects view nothing changes (but should!)• trying to open the selected taxon via context menu does not work (instead the old selection is opened)			
There are other ways to reproduce it. This issue may also explain why there are from time to time ClassCastException when opening something from navigator.
