Description			
<p>As a first step, here is an update for the list. This is a follow-up to ticket #9618</p> <p>The new list is based on the IAPT list of historical codes, published at https://www.iapt-taxon.org/historic/index.htm</p> <p>ICN and ICBN is deleted instead of a short citation of the code, followed by the year of publication (this is more important than the year of the respective ICB).</p> <p>Lois, 1867 Lois ed. 2, 1883 Vienna Rules, 1906 Brussels Rules, 1912 Cambridge Rules, 1935 Amsterdam Rules, 1950 Stockholm Code, 1952 Paris Code, 1956 Montreal Code, 1961 Edinburgh Code, 1966 Seattle Code, 1972 Leningrad Code, 1978 Sydney Code, 1983 Berlin Code, 1988 Tokyo Code, 1994 Saint Louis Code, 2000 Vienna Code, 2006 Melbourne Code, 2012 Shenzhen Code, 2018 San Juan Chap. F, 2019</p> <p>The second step will be a second entry with the full-citation cache of each short citation. The complete citation is necessary for Phycobank but may be also helpful for other projects.</p>

I guess this is more or less fixed. I implemented a way how long citations can be added to the code edition via volatile objects created on the fly and hardcoded in the programm code. This should be enough for the current needs.

I added the data for the last 4 ICN/ICBN codes and for Chapter F (2019).

If more is needed it can be easily added in the code.

For the code in bold "Lois ed. 2, 1883" there is no solution as it refers to the same code edition ("rules") as the "Lois, 1867" rules. I can add >1 citations to each code. A work around could be to create a second code edition for this if it is every needed. For now this is not implemented.

Can you please review (also if the long citation for Shenzhen 2017 is correct).

- *Assignee changed from Wolf-Henning Kusber to Andreas Müller*
- *% Done changed from 70 to 100*

As far as I can see all (but one) issues are fixed. Shenzhen Code citation in PhycoBank Test portal is as expected (08 June 2023). I am happy that we deleted the ICN/ICBN issue.

I close the ticket. If needed, we can reopen it later.
