

EDIT - bug #9662

CDMLight: Output should summarize all MAN with same name and err. sec

06/10/2021 09:44 AM - Katja Luther

Status:	New	Start date:	
Priority:	New	Due date:	
Assignee:	Katja Luther	% Done:	0%
Category:	cdmadapter	Estimated time:	0:00 hour
Target version:	Release 5.45	Found in Version:	
Severity:	normal		
Description			
mail WB:			
Aber hierzu noch der Wunsch, dass die MAN-sensu Referenzen zusammengefasst werden, wenn der Name und die err.sec. Referenz gleich sind.			
This functionality should be available for portal and CDMLight/other exports

- Description updated

- Target version changed from Unassigned CDM tickets to Release 5.45

Katja, Andreas, should we think about a general formatter for homotypic groups, misapplication groups and full synonymies for cdmLib that can be used for CDM light and the data portals using tagged text? To me it looks like this is currently implemented separately in CDM light and data portals.

Andreas K., do you think this will work for the data portals?
Katja, for CDM light this is probably easy to implement and I guess it makes sense.

Please assign this ticket to me if we decide to handle the above issue in the mentioned way.
