

## EDIT - bug #9665

### Filter out property change event for created and updated and cacheStrategy

06/11/2021 01:20 PM - Andreas Müller

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	New	<b>Due date:</b>	
<b>Assignee:</b>	Andreas Müller	<b>% Done:</b>	100%
<b>Category:</b>	cdmlib	<b>Estimated time:</b>	0:00 hour
<b>Target version:</b>	Release 5.25	<b>Found in Version:</b>	
<b>Severity:</b>	major		
<b>Description</b>			
<p>Currently these events (created and updated) are fired by the CdmPreDataChange Listener which results in setting titleCaches back to null again. In some cases this leads to a situation where the titleCaché is not saved correctly but null is stored instead. This definitely happened in 1 test related to implementation for <a href="#">#9664</a>.</p> <p>It might also be the reason for <a href="#">#9649</a>.</p> <p>And of course it is not good for performance reasons.</p>
