

## EDIT - bug #9701

### Order and display of different typifications for one name in one reference

07/07/2021 04:31 PM - Wolf-Henning Kusber

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Highest	<b>Due date:</b>	
<b>Assignee:</b>	Andreas Kohlbecker	<b>% Done:</b>	100%
<b>Category:</b>	cdm-vaadin	<b>Estimated time:</b>	0:00 hour
<b>Target version:</b>	Release 5.27	<b>Found in Version:</b>	
<b>Severity:</b>	normal		

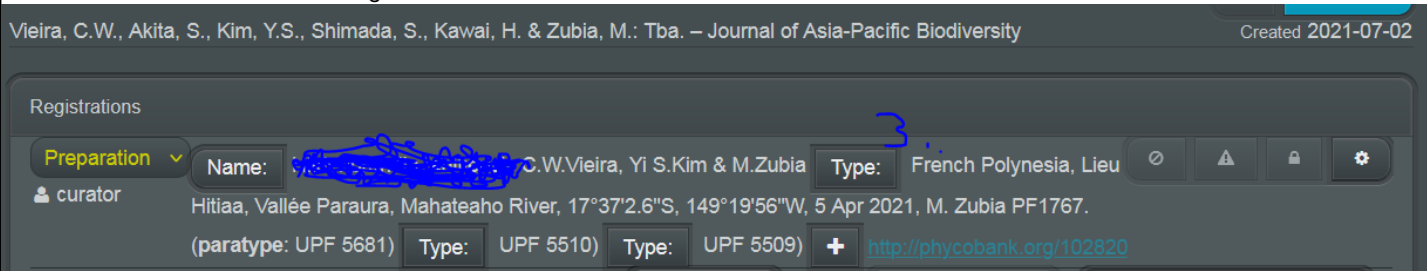

**Description**

Correct: When a type specimen editor entry has a holotype and isotypes, the display and order is correct in Vaadin.

Bug: When e.g. a name has a holotype (1. entry), a paratype from a different locality/date (2. entry), and a second paratype from a third locality/date, PhycoBank has the following demands:

1. show complete type information for each entry, in case different type specimen forms have been used.
2. Use the order, the data entry was performed, users are beginnen with the most important type (e.g. holotype)

Please check also minor formatting issues.

- Assignee changed from Wolf-Henning Kusber to Andreas Kohlbecker
- % Done changed from 50 to 100

Working not exactly as expected, but a little bit better :)  
The colours are nice, the plural thing is also solved.  
The Types are exactly in the right order.  
Test system 102734 (I reproduced the problem from the production system). So this ticket can be closed.
