History

#1 - 07/27/2021 04:50 PM - Andreas Kohlbecker

- Related to feature request #7749: Add "Link with taxon selection" as an icon to the toolbar of the specimen tree editor added

#2 - 07/27/2021 05:40 PM - Andreas Kohlbecker

- Subject changed from Specimen tree editor: hide "Link with taxon selection" in context menu if no specimen or observation is selected to Specimen tree editor: Function of "Link with taxon selection" in context menu unclear

Now I found out that I was misled by the label "Link with taxon selection". The actual function is that the editor filter follows the selection in the taxon navigator. Maybe we can find a better label for this. Since this function is accessible via the context menu one is easily fooled to think that this is a function for "edit" the data.

I am changing the subject accordingly

#3 - 09/01/2021 01:55 PM - Andreas Müller

- Status changed from New to Duplicate

- Target version deleted (Unassigned CDM tickets)

This duplicates the last issue in [#9732](#) and is fixed in the meanwhile (menu entry was removed).

#4 - 09/01/2021 01:55 PM - Andreas Müller

- Is duplicate of bug #9732: Open issues in specimen tree editor added

#5 - 09/01/2021 01:58 PM - Andreas Müller

- Subject changed from Specimen tree editor: Fuction of "Link with taxon selection" in conctect menu unclear to Specimen tree editor: Function of "Link with taxon selection" in context menu unclear
