

EDIT - feature request #9747

Make languages editable in TaxEditor

09/07/2021 03:26 PM - Andreas Müller

Status:	Closed	Start date:	
Priority:	New	Due date:	
Assignee:	Katja Luther	% Done:	100%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 5.27		
Severity:	blocker		
Description Currently languages are not yet editable in TaxEditor. For the CDM this is correct. But other languages should be editable. We need an entry in the terms-vocabulary menu for this.			
Related issues: Related to EDIT - bug #9766: CDM vocabularies should not be editable Closed

History

#1 - 09/07/2021 03:27 PM - Andreas Müller

- Tags set to mexico

#2 - 09/13/2021 01:17 PM - Katja Luther

- Status changed from New to Resolved

- % Done changed from 0 to 50

Applied in changeset [taxeditor|53e555624aa688350d4c89e43e8a3f172e534022](#).

#3 - 09/13/2021 01:20 PM - Katja Luther

- Assignee changed from Katja Luther to Andreas Müller

- Severity changed from normal to blocker

To add the language editor can be done in 5 minutes, but to allow the editing for non cdm languages and do not allow for cdm languages is a little bit more difficult.

The actual implementation checks whether the vocabulary has titleCache "Languages (ISO 639-2)", maybe we should handle this more generic by a flag for cdm vocabularies.

Please review the actual implementation

#4 - 09/14/2021 10:43 AM - Katja Luther

Now the implementation uses the cdmVocabularyUuid method.

#5 - 09/14/2021 09:34 PM - Andreas Müller

- Status changed from Resolved to Feedback

- Assignee changed from Andreas Müller to Katja Luther

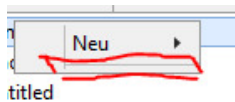

The menu for vocabularies and term trees should use the same order. Please move the "language" menu item to the same position as in the term tree menu.

#6 - 09/14/2021 09:44 PM - Andreas Müller

- File picture451-1.png added

Minor issue:

There is a separator below "New" but no other group or item:

Can we remove this.

Also for non-CDM vocabularies there are 2 separators between "New" and "Delete". One should be enough.

#7 - 09/14/2021 09:49 PM - Andreas Müller

Functionality works and ticket can be closed.

However, the Language class has 1 more attribute iso639_1 which refers to the "ISO 639-1" id. Is it possible to add this field to the details view? Best position would be below ID in vocabulary.

Is this easy to implement or should we open a new ticket?

#8 - 09/14/2021 09:51 PM - Andreas Müller

According to commit 53e555624aa688 there is lots of commented code now in OpenDefinedTermEditorHandlerE4.java . Can this be removed or is it still needed?

#9 - 09/15/2021 09:52 AM - Katja Luther

- Assignee changed from Katja Luther to Andreas Müller

I already reverted the changes in this file, this will come with the changes of the character matrix and therefore the commented code will be removed.

#10 - 09/15/2021 10:34 AM - Katja Luther

- Status changed from Feedback to Resolved

This is fixed.

this is fixed

#13 - 09/15/2021 10:36 AM - Katja Luther

The doubled separators are removed. Please review.

#14 - 09/17/2021 10:43 AM - Andreas Müller

- *Related to bug #9766: CDM vocabularies should not be editable added*

#15 - 09/17/2021 10:45 AM - Andreas Müller

- *Status changed from Resolved to Closed*

- *Assignee changed from Andreas Müller to Katja Luther*

- *% Done changed from 50 to 100*

This works as expected.

For the disabling of other CDM vocabularies I added a new ticket. If disabling was easy to implement we could maybe try to solve this also in 5.27.

#16 - 09/21/2021 02:12 PM - Andreas Müller

- *Target version changed from Release 5.45 to Release 5.27*
