

EDIT - bug #9766

CDM vocabularies should not be editable

09/17/2021 10:43 AM - Andreas Müller

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Katja Luther	% Done:	100%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 5.36	Found in Version:	
Severity:	normal		
Description			
this is already implemented for languages in #9747 . We should implement it for all CDM vocabularies.			
Related issues:

AM:

Wir könnten auch je Klasse ein `cdmVocabularyUuids()` einführen, die dann alle bekannten CDM VOC uuids zurückgibt, mit der man dann checken kann, ob ein voc ein CDM Voc ist. Ich habe das für Language gerade mal angelegt. Aber vielleicht ist es besser, dass in die TermType Klasse zu

verschieben und mit TermType als Parameter abzufragen. Dann hat man alles an einer Stelle und es ist leichter abfragbar. Du kannst ja mal überlegen, was das sinnvollste ist. Da es nicht ewig benutzt werden wird, ist es nicht ganz so wichtig. Aber gut, wenn es an einer Stelle steht, dann können wir es später im Bulk Löschen. Wir sollten es aber für alle editierbaren Terme implementieren.

We could use the VocabularyEnum and add a method getVocabularyByUuid or a method to check whether a vocabulary is part of this enum.

#5 - 03/02/2023 03:14 PM - Katja Luther

I implemented it with the VocabularyEnum and it seems to work. I would commit it and you can have a look whether it is ok.

Drag&drop from and to CDM vocabularies is still possible. Move to ... I could not check as there was an NPE in the parent search. I fixed and pushed it.

Missed to commit the changes and now also added that the standard vocabularies are not shown in the term choosing wizard. Please review.

#12 - 03/22/2023 09:39 PM - Andreas Müller

Moving a term via context menu does not work anymore. I tried with multiple feature and state terms which do not belong to CDM default vocabularies.

I don't if this is related to the current fix. If not, please open a new ticket.

This is fixed.

Now it is (again?) possible to move a term from a non-CDM voc to a CDM-voc via d&d. I tried with "Delete2" from "Delete voc" into "Feature" on rem_conf_am.

This is dangerous because if it happens accidentally the user has no chance to move it back.

#16 - 03/23/2023 12:55 PM - Katja Luther

This is fixed, please review.

#17 - 03/24/2023 10:30 AM - Andreas Müller

When trying to movie a feature via context menu to "test" I got

```
java.lang.NullPointerException
    at eu.etaxonomy.cdm.persistence.dto.TermDto.localize(TermDto.java:127)
    at eu.etaxonomy.taxeditor.view.search.facet.term.TermSearchResult.initFacets(TermSearchResult.java:36)
    at eu.etaxonomy.taxeditor.view.search.facet.term.TermSearchResult.initFacets(TermSearchResult.java:1)
    at eu.etaxonomy.taxeditor.view.search.facet.SearchResult.<init>(SearchResult.java:28)
    at eu.etaxonomy.taxeditor.view.search.facet.term.TermSearchResult.<init>(TermSearchResult.j
```

Fixed by KL but check needed if there might be follow up exceptions.
