

EDIT - bug #9791

Handle differing media meta data and informations in DB

09/28/2021 09:50 AM - Katja Luther

Status:	New	Start date:	
Priority:	Highest	Due date:	
Assignee:	Katja Luther	% Done:	0%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 5.45	Found in Version:	
Severity:	normal		
Description			
If media data of a media differs from the data in DB, we need a refresh button and a warning that the informations are not the same. Actually the details view always shows the information coming with the media and it is not visible if this differs from the information in DB.
