

EDIT - bug #9800

Open issues for character matrix

10/05/2021 09:40 AM - Katja Luther

Status:	In Progress	Start date:	
Priority:	New	Due date:	
Assignee:	Katja Luther	% Done:	0%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 5.45	Found in Version:	
Severity:	normal		
Description			
<ul style="list-style-type: none">• implement the details view again to be able to edit some more advanced data like the modifiers. This worked in earlier versions but was removed by PP when implementing a faster version. As we already handle some DTOs in details view I don't think it should be too difficult to reenale it. (#9799)• Improve performance for loading DDS (RowWrapperDTO) (#9842)• the color of the field where a default description exists, changes (of the color) are only visible after restart of the matrix• newly created taxon descriptions sometimes show up in a separate subtree.(maybe this belongs to #9015)• the "open in ..." context menu is missing v5.9• taxon navigator should react on a selected taxon if the "mit Taxon verknüpfen" button is checked in taxon naviator.• id/uuid of row objects (taxon, specimen) should be displayed (Either in the row at the end (like the bulkeditor) or in the supplementatl data view.)• menu items "hide column"/"show all columns" are doubled after aggregation v5.9• allow opening only a subtree (#9841)• correct handling of enabled and disabled fields in quantitative data dialog. v5.9			
See also the matrix tag for all open matrix related issues.
