#### Description

It seems as if the removal of the TaxonRelationshipBeanProcessor has caused this new problem

The screenshot shows the EURO+MED PlantBase search results page for 'Kobresia capillifolia'. The search results are empty, and an error message is displayed in a red box. The error message contains the following text:

- Notice: Undefined property: stdClass::\$toTaxon in *compose\_list\_of\_taxa()* (line 501 of */home/andreas/workspaces/cdm/cdm-dataportal/modules/cdm\_dataportal/includes/taxon.inc*).
