

EDIT - task #9833

Remove cascading from descriptive dataset

10/28/2021 10:33 AM - Andreas Müller

Status:	Closed	Start date:	
Priority:	New	Due date:	
Assignee:	Andreas Müller	% Done:	100%
Category:	cdmlib	Estimated time:	0:00 hour
Target version:	Release 5.28		
Severity:	normal		
Description			
Cascading for descriptive system (feature tree), subtree filter (taxon nodes) and geo filter (named areas) is not necessary. Probably also cascading for "descriptions" can be removed as these descriptions should exist also without being attached to the DDS.

fix #9833 remove cascading in DDS to descriptions

History

#1 - 10/28/2021 12:04 PM - Andreas Müller

- Status changed from New to Resolved
- % Done changed from 0 to 50

Applied in changeset [cdmlib|f51cbc4e73cba3be1ebdd46613626b742698763e](#).

#2 - 11/01/2021 03:38 PM - Andreas Müller

- Status changed from Resolved to Closed
- % Done changed from 50 to 100

I intensively tested saving DDS with new ranks, feature trees, subtrees and descriptions and everything seems to work. Adding a geofilter did not work as the dialogue did not open - this is another issue - and therefore could not be tested.
