

EDIT - task #9852

Use rulebased creation of thumbnail links for Salvador images

11/05/2021 10:47 AM - Andreas Müller

Status:	New	Start date:	
Priority:	New	Due date:	
Assignee:	Andreas Müller	% Done:	0%
Category:	data	Estimated time:	0:00 hour
Target version:	Release 5.45		
Severity:	normal		
Description			
<p>Currently salvador images are stored as full images and thumbnails on the media fileservers. We could use the rulebased thumbnail URL creation to avoid having 2 MediaRepresentations per image in the DB.</p> <p>While doing so we should think about moving the images to the media server and handle them similar to images in Cichorieae and Cyprus DBs.</p>
