

## EDIT - bug #9873

### Open in... in search view should show distribution editor

11/17/2021 04:18 PM - Katja Luther

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	New	<b>Due date:</b>	
<b>Assignee:</b>	Katja Luther	<b>% Done:</b>	0%
<b>Category:</b>	taxeditor	<b>Estimated time:</b>	0:00 hour
<b>Target version:</b>	Unassigned CDM tickets	<b>Found in Version:</b>	
<b>Severity:</b>	normal		
<b>Description</b>			
We should discuss whether this should open only the selected taxon or the subtree of the selected taxon.			

#### History

##### #1 - 11/18/2021 08:16 AM - Katja Luther

mail WGB:

in principle I would expect the same behaviour as in the Taxon Navigator (i.e. opening the subtree) – so usage is intuitive. However, this may not be always the most practical way to enter, e.g., the individual distribution of a higher-ranked taxon – but this applies to both, Navigator and Search result. I opt for both behaving the same way. Perhaps for taxa of generic or higher rank an additional option “Open in ...” Distribution editor (this taxon only) could be added, but I don’t think this is urgent.

I assume that synonyms and MANs in the search result will not have this option at all?

##### #2 - 11/18/2021 08:52 AM - Andreas Müller

Maybe we can do a count before opening the distribution editor. If count is >100 (or any other number) we may ask the user if opening full subtree is really wanted.

WGB:

ja, gute Idee – gilt aber auch für beide Kontext-Zugänge.
