Description

Hallo Andreas,

der RIS-Import von Artikeln und Büchern funktioniert jetzt. Das Einzige, was nicht funktioniert, ist der Import von Book Sections, das war aber vorher auch schon so. Der Buchtitel und die Editors werden nicht importiert.

Ich schicke dir mal ein Beispiel (RIS im Anhang)

Arias S., Gama-López S., Guzmán-Cruz L. U. & Vázquez-Benítez B. 2012: Cactaceae. – Pp. 1-235 In: Medina L. R. (ed.), Flora del Valle de Tehuacán-Cuicatlán. Fascículo 95. – México D. F.: Instituto de Biología, Universidad Nacional Autónoma de México.

Nach dem Import sieht das so aus

Warnings:

RIS tag A2 (Secondary Author) not yet handled. n = 1[doInvoke(eu.etaxonomy.cdm.io.reference.ris.in.RisReferenceImport:97)]

The screenshot shows a software interface for managing references. The main entry is for 'Reference: Arias, S., Gama-López, S., Guzmán-Cruz, L.U. & Vázquez-Benítez, B. 2012: Cactaceae, pp. 1-235. – In:'. Below this, there are several fields and buttons:

- Reference Cache:** Arias, S., Gama-López, S., Guzmán-Cruz, L.U. & Vázquez-Benítez, B. 2012: Cactaceae, pp. 1-235. – In: (with a lock icon)
- Nomenc. Cache:** Arias, S., Gama-López, S., Guzmán-Cruz, L.U. & Vázquez-Benítez, B. in Fascículo 95. 2012 (with a lock icon)
- Reference Type:** Book Section (with a dropdown arrow)
- Title:** Cactaceae
- Nomencl. Title:** (empty field)
- Author:** Arias, S., Gama-López, S., Guzmán-Cruz, L.U. & Vázquez-Benítez, B. (with icons for edit, copy, and delete)
- Book:** Reference [type=Book, id= 0, uuid=db3d6c18-1b61-486a-bd1a-fc88f7d0582d] (with icons for edit, copy, and delete)
- Pages:** 1-235
- Date Published:** 2012
- URI:** (empty field with a globe icon)

Und wenn man das Buch auswählt, ist dort nur Verlag und Ort importiert.

| Reference | |
|----------------------|--|
| Reference Cache | <input type="text"/> |
| Nomencl. Cache | <input type="text"/> |
| Reference Type | Book |
| Title | |
| <input type="text"/> | |
| Nomencl. Title | <input type="text"/> |
| Author | <input type="text"/> |
| In Series | <input type="text"/> |
| Editor | <input type="text"/> |
| Edition | <input type="text"/> |
| ISBN | <input type="text"/> |
| Place Published | México D. F. |
| Publisher | Instituto de Biología, Universidad Nacional Autónoma de México |
| Volume | <input type="text"/> |
| Series | <input type="text"/> |
| Pages | <input type="text"/> |

Das passiert offensichtlich auch dann, wenn es das Buch in der Datenbank schon gibt.

Schau dir das mal bei Gelegenheit an. Es wäre gut, wenn Buchkapitel auch direkt importiert werden könnten, das braucht man ja viel bei Floren-Treatments.

Viele Grüße
Nadja

Associated revisions

Revision 8e53bbac - 11/29/2021 11:14 PM - Andreas Müller

ref #9888 add book section handling to RIS import

History

#1 - 11/29/2021 03:33 PM - Andreas Müller

- File Arias2012.txt added

Example see attachement.

#2 - 11/29/2021 03:35 PM - Andreas Müller

- Related to feature request #9809: Implement further tags for RIS reference import added

#3 - 11/29/2021 03:35 PM - Andreas Müller

- Related to feature request #9786: Implement tags CY and fix PY handling for RIS import added

#4 - 11/29/2021 11:18 PM - Andreas Müller

- Status changed from New to Resolved

- Priority changed from New to Highest

- % Done changed from 0 to 50

This should be fixed except for deduplication which is handled in [#9889](#)

#5 - 11/29/2021 11:19 PM - Andreas Müller

- Copied to feature request #9889: Implement deduplication for RIS import added

#6 - 12/02/2021 04:38 PM - Andreas Müller

- Status changed from Resolved to Closed

- % Done changed from 50 to 100

Also deduplication is implemented now.

#7 - 02/15/2022 03:40 PM - Andreas Müller

- Target version changed from Release 5.45 to Release 5.29
