

EDIT - bug #9891

Open issues for RIS import in TaxEditor

12/02/2021 03:48 PM - Andreas Müller

Status:	New	Start date:	
Priority:	New	Due date:	
Assignee:	Katja Luther	% Done:	0%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 5.34	Found in Version:	
Severity:	normal		
Description			
open issues from #6640			
<ul style="list-style-type: none">• currently the import allows only ".txt" as ending. Which should also allow ".ris" and ".".• the entered name of the "Default import source reference" does not show up anywhere, instead the source reference gets a title like "RIS Reference Import 2021-12-02". Needs discussion what is needed. Definitely it would be good to have the import file name somewhere. This seems to be a general issue for all imports.• serialization for InputStreamReader (see #6640#note-6)• include into reference bulk editor context menu (also move from taxon navigator to File menu, but there should be another ticket for this general import issue)
