<b>Target version:</b>	UTIS 1.4		
<b>Severity:</b>	normal		

#### Description

The algaebase.org web service api is described here: <https://www.algaebase.org/api/>

**IMPORTANT:** The Algaebase copyright statement (<https://www.algaebase.org/copyright/>) is quite restrictive. Therefore all data exposed from Algaebase needs to be flanked by the CopyrightURL. The copyrightURL is already part of the capability response but also needs to be added to the response object.
